# ABOUT US

- - To be able to compete in the world market with our service quality, reliability and experience.
- - To make accepted the customer-focused quality understanding to all organizations.
- - To ensure the improvement of the quality system and production efficiency by providing the necessary technological investments and trainings
- - To ensure that the quality is not a level reached and protected for our company but rather a changing and renewed target according to the conditions shaped in parallel with the development of the world.
- - Improve and renew our services with the aim of providing ease of application to our customers.
- - To put the culture of prevention in a systematic way by making risk assessments related to possible dangerous situations and behaviors within the scope of all our activities
- - To comply with the legislation and conditions without compromise.
- - To ensure continuous improvement and sustainable system of our employees and customers in compliance with the environment with occupational health and safety.
- - To determine the rules of Occupational Health and Safety and to ensure compliance with these rules.
- - To ensure the participation of all our employees within the scope of our Occupational Health and Safety activities, to inform, to train, to supervise and to ensure high awareness in the enterprise.

## OUR MISSION

Our aim is to provide our customers with a rational, profitable and short-term recycling project by realizing our knowledge and experience. And in connection with our project, to realised with our wide product supply, to be the fastest and most efficient solution to the whole world and to be a Company that maintains the customer satisfaction and work safety superior to above all, which operates with sustainable productivity in the World Standards.

## OUR VISION

Our basic goal, with innovative, intelligent, principled and our responsible approach, in our own area to be among the leading companies in Turkey.

## EX-PROOF PRODUCTS AND SYSTEMS

In explosion-proof non-flammable systems our Expert staff, complies with provides professional Service with IEC standarts.

IECEx is a standard and system against explosion Must be equipped with protected electrical equipment.

IECEx system electrical equipment standards complying with IEC, explosive gas atmosphere for hazardous areas (zones 0,1 and 2) and explosive dust atmosphere for hazardous areas (zones 20,21 and 22)

## PROTECTION TYPES AND STANDARDS

***Different types of explosion protection standards for electricity ;***

PTOTECTION TYPE – GLOBAL STANDARDS (IEC)

Ex d – Flamerroof enclosure - IEC 60079-1

Ex p - Pressure enclosure - IEC 60079-2

Ex q – Powder filling - IEC 60079-5

Ex o - Liquid dipping - IEC 60079-6

Ex e - Enhanced security - IEC 60079-7

Ex ia / ib –Internal Security-IEC 60079-11

Ex n – Non-incentive - IEC 60079-15

Ex m - Encapsulation - IEC 60079-18

Non-enclosure fire protection - IEC 60079-31 Standards applied together with IEC 60079-0
